SV MINE SITE READY PACK

Designed for on-site operations, safety, and durability

The SV Mine Site Ready Pack is engineered to prepare vehicles for the demands of active mining environments. Built with a focus on safety, protection, and operational reliability, this package equips fleets with essential site-ready accessories to support daily operations, compliance requirements, and long-term durability.

Configured for practicality and compliance, the Mine Site Ready Pack provides a consistent, site-ready solution suitable for fleet and contractor applications.

Package includes:

Front bumper, rear bumper, chassis-mounted side steps, side rails, sport bar with rear mirror protection, safety flag, and reflective vehicle decals.

Optional:

Light bar options available to suit site requirements.
