

ALUMINUM FLATBED TRAY

SINGLE CAB / DOUBLE CAB

This versatile aluminium tray is a durable and lightweight solution designed to maximize the utility and storage capacity of your pickup truck. The tray comes equipped with essential components, including a tail light protector and LED tail light, ensuring safety and visibility on the road. A rubber mat is also included to protect your cargo and the tray surface from damage.

Built with an adjustable mounting bracket, this tray offers broad compatibility, fitting a majority of popular pickup truck brands, including Ford, Toyota, Mazda, and Isuzu.

For inquiries about compatibility with other makes and models, please contact us directly.

BENEFIT

✓ LIGHTER WEIGHT:

Aluminum is significantly lighter than steel, which increases your truck's payload capacity and improves fuel efficiency.

✓ RUST-RESISTANT:

Aluminum doesn't rust or corrode, so it holds up well in all weather conditions, especially those with high moisture or road salt.

✓ DURABLE:

Despite being lightweight, modern aluminum alloys are strong and tough, able to handle heavy-duty work for many years.

✓ VERSATILE:

The flat, open design allows for easy customization with accessories like toolboxes, ladder racks, and different tie-down points.
