

SURFACE MINING RANGER SUPER DUTY

We proudly design, engineer and modify mine site vehicles for our tough mining environments. Our vehicles are fully equipped based on the Class 3 Light Mining Vehicle standard, inside and out. These vehicles can also be fitted with life-saving Roll Over Protection Systems (ROPS) for improved occupant safety.

In order to ensure Occupant Safety and comply with the Class 3 Light Mining Specification required by Mining Houses like Anglo American, BHP Billiton and Rio Tinto, we offer a wide variety of Mining accessories to create vehicles custom built for these harsh environments.
